List all areas, and special instructions for snow removal / ice melting: _____

DISCLAIMER: Highwood Construction is not responsible for damage to anything buried under snow along pathways and driveways (landscape lighting, decorations, sprinklers, hoses etc.) unless clearly marked with a marker pole. It is recommended that fiberglass marker poles be installed before snow, to outline: drives, parking areas, paths etc. Highwood Construction is not responsible for minor surface scratches on concrete, pavers, decks, roofs or other surfaces from snowblower, skids, equipment, shoes, shovels, pressure washing, or hot water ice melting. Relocating snow thrown off the roof is extra. We use only plastic shovels on roofs and decks, however some damage may still occur. Roof-top snow removal and ice melting is inherently dangerous to the roof surface and as such should only be requested in order to prevent greater damage caused by ice-dam leaks and structural damage due to heavy snow loads.

Deposit must be paid in advance. Installments due as work progresses.
